

Dorset

Warm Homes : Local Grant

Lower your energy bills and enhance your homes' energy efficiency through upgrading insulation, heating and renewable energy measures

The scheme enables homeowners and private renters to access funded energy saving measures such as, insulation, heating upgrades and renewable energy technologies. The Warm Homes: Local Grant will help reduce energy use and fuel costs for qualifying residents, who live in a lower energy rated home (EPC D to G), live in the BCP Council or Dorset Council area and meet one of the other grant criteria.

Only available to BCP Council and Dorset Council residents.

Phone **0300 003 7023**
Text **07984 440584**

Am I eligible?

1. Are you a Homeowner or Private Tenant?

2. Have a low EPC rating?

D, E, F or G rated Energy Performance Certificate

3. And one of the below:

Annual household income below £36,000

In receipt of a qualifying benefit

Live in an eligible postcode

Further information on qualifying benefits and specific locations are available on the website, or by contacting us on 0300 003 7023. Company registered in England and Wales no. 10585852.

Annual household income threshold, qualifying benefit and qualifying area, are standalone criteria.

Qualifying example: You are a homeowner, have a D rated EPC and live in an eligible postcode.

Dorset Warm Homes: Local Grant funding applies only to households within the BCP and Dorset Council areas that meet the correct eligibility criteria, not all areas qualify.

You may require a package of measures, or we may only be able to offer you a limited number of measures, as we must keep the average project spend below a certain level, which is a requirement of the funding. Our fully trained assessors will help determine which measures will benefit your property most. All measures and funding are subject to survey, terms and conditions.

 Cavity Wall Insulation	 Loft Insulation	 External Wall Insulation	 Air Source Heat Pumps	 Under Floor Insulation
 Room in Roof insulation	 High Efficiency Electric Heating	 LED Lighting Upgrades	 Solar PV Panels	 Solar Thermal
